

FAQ

CSA Flower Share questions:

- What is a CSA Flower Share? **CSA** is an abbreviation for Community Supported Agriculture. When you become a member of our **CSA**, you are buying a "**share**" of the **flowers** that we produce each season. Depending on the **share**, we will deliver the season's most beautiful **flowers** to your pick-up location of choice.
- How do I order? Print the order form and select the type of share and location for pickup, add check and place in the mail.
- Can you accept PayPal or credit cards? Currently I can only accept checks for shares.
- How will I know when shares start? I will notify you by email when flowers will become available. The beginning of the season is the most variable and is at the whim of Mother Nature.
- Can I have someone else pick up my share? Absolutely! Just notify me ahead of time so I know I am giving your share to the correct person.
- Can I split a share with someone? Yes! What a great way to make flowers affordable and brighten more than one person's day.
- What happens if I go on vacation? You can someone else pick up for you OR you can extend your weeks if you notify me ahead of time.
- Where are your flowers grown? All flowers are locally grown by me (Teresa Foster) in both Erving at my home and in Sunderland on my family's plot.
- What type of flowers will be in my share? This will vary by each week and month depending on what flowers are in bloom. Variety is the spice of life! I guarantee you will be pleased with the selection.
